JATO CELEBRATES TEN YEAR ASSOCIATION WITH LEASEPLAN

JATO Dynamics, the world's leading provider of automotive data and intelligence, is celebrating a highly successful decade-long association with LeasePlan, Europe's leading fleet and vehicle management company.

The two companies formed a working association in 1997, and JATO now supplies LeasePlan with car and light commercial vehicles specifications, prices, options and images.

"LeasePlan has an outstanding reputation in the fleet and leasing industry," says Nasir Shah, Global Business Development Director at JATO. "It is critical to its business that it has access to timely, accurate data, and no other organisation can do that as effectively as JATO."

Currently, JATO supplies LeasePlan in fourteen countries across the world, having recently extended its data supply into the Slovakian and Brazilian markets with data that supports its quotation process. "We are also further developing our internet quotation capabilities," says Grainne McEvoy, Director Business Development at LeasePlan Corporation. "It goes without saying, that JATO is providing crucial assistance in this important extension to our business."

Editorial note: JATO Dynamics background

JATO was founded in 1984 and provides the world's most timely, accurate and up-to-date information on vehicle specifications and pricing, sales and registrations, news and incentives. The company has representation in over 40 countries, providing unique local market expertise. The JATO client base includes all of the world's volume vehicle manufacturers, giving them the ability to react to short-term market movements, plan for long-term developments and ultimately to meet consumers' needs. JATO's data has also been adapted for consumer use in motoring web portals where customers can see the advantages and disadvantages of a specified model against any other while major leasing companies use JATO data to drive the vehicle quotation process.
